

## **infinias** Single Door Kit with 3xLOGIC Prox Reader, Door Strike & Sensors

The infinias Single Door Add Kit with 3xLOGIC Prox Reader, Door Strike and Sensors includes the door hardware and accessories you need to get started with an IP-based access control solution. The kit includes an infinias Ethernet-enabled door controller, 3xLOGIC prox reader, mounting box, plus other needed accessories such as door strike and door sensor, so you can quickly and easily add a door to your network. The reader is equipped with a 9ft cable, reducing installation time by eliminating the need to splice wires and troubleshoot unnecessary wire connections. infinias offers a variety of door add kits that provide various hardware and accessory options designed to suit your specific needs. This single door add kit is ideal for new access control installations.

### Key Features & Benefits

- Simple to install
  - ▶ Mounts at the door with a surface mount box.
  - ▶ 9ft 3xLOGIC Prox reader cable simplifies wiring and helps to standardize on installs.
  - ▶ Cloud Ready by default.
  - ▶ Install and Test using Site Access Mobile App.
- Door controller connects to the closest network switch with a single Cat 5/Cat 6 cable.
- Supports one door with one or two Wiegand readers.
- Power over Ethernet (PoE) carries both data and power for both controller and door peripheral hardware.
- 3-state alarm monitoring and anti-passback for enhanced security.
- Buffers up to 16,000 local events when disconnected from the host (so events are never lost).
- Secure transmissions with end-to-end AES 128-bit encryption.
