infinias Single Door Add Kit with HID Prox Reader, Door Strike & Sensors

The infinias Single Door Add Kit with HID Prox Reader, Door Strike and Sensors includes the door hardware and accessories you need to get started with an IP-based access control solution. The kit includes an infinias Ethernet-enabled door controller, HID prox reader, mounting box, plus other needed accessories such as door strike and door sensor, so you can quickly and easily add a door to your network. infinias offers a variety of door add kits that provide various hardware and accessory options designed to suit your specific needs. This single door add kit is ideal for new access control installations.

Key Features & Benefits

- Simple to install, mounts at the door with a surface mount box.
- Door controller connects to the closest network switch with a single Cat 5/Cat 6 cable.
- Supports one door with one or two Wiegand readers.
- Features 32-bit processor for enhanced speed and performance.
- Power over Ethernet (PoE) carries both data and power for both controller and door peripheral hardware.
