

infinias® ESSENTIALS

The infinias ESSENTIALS Base Software Kit provides all of the essentials needed to deliver broad access control capabilities to conveniently secure and manage your location, within a simple, intuitive browser-based user interface. The software allows you to view events and associated playback video, and report on any or all events and alarms. Define multiple security roles, access and privileges for individual users, and use the powerful 'rules engine' to perform a variety of functions including: defining schedules and holiday sets, sending push notifications to Site Access mobile app users, and designing, building and printing badges with Microsoft Report Builder 3.0.

The infinias ESSENTIALS Base Software Kit includes pre-installed templates including wiring diagrams that help ensure accurate and efficient installation and offers broad integration with a wide variety of industry-leading video surveillance manufacturers. The Base Software Kit makes it easy and convenient to secure your business, and saves you money thanks to an unlimited door license and support for unlimited number of doors and events, as well as up to 64,000 card holders.

Key Features & Benefits

- **Responsive Design User Interface:** Software auto-adjusts to the size of the browser window, simplifying interaction with the software on any device type.
- **Integrated 3xLOGIC Video:** Conveniently view playback video for a specific event or live video for a specific door, directly from a web browser or by using the 3xLOGIC Site Access mobile app.
- **Push Notifications:** Utilize the Rules Engine and the Site Access mobile app to send exception based notifications to a group of people.

- **Customizable Rules Engine:** In addition to common access control features, infinias' powerful rules engine allows you to build your own. Define events, advanced filters, and actions to create an unlimited set of custom features that deliver the results required for your application. With infinias, the power is in your hands.
- **People & Groups:** Easy management. Manage people, groups, roles, privileges, and credentials from a single screen.
- **Door Status:** Improve monitoring. Status icons provide improved door status monitoring. Hover over an image in the legend to bring up a tool tip that explains the icon.
- **Auto Discovery:** Simplify configuration. Auto discovery of door controllers makes configuration easy. Any additional doors added to the system at a later date can benefit from auto discovery as well.
- **Badges & Reports:** Run reports and create badges. infinias ESSENTIALS uses Microsoft's SQL Server Reporting Services to host badges and reports. Many IT groups already use this solution internally and have their own SQL expertise.

GENERAL

Product Name: infinias ESSENTIALS Base Software Kit
SKU: S-BASE-KIT-S

COMPONENTS

S-IA-ESS x 1 infinias ESSENTIALS Software License
S-ACC-CLM x 2 infinias Clamshell Credentials Card
S-ACC-PVC x 2 infinias PVC Credentials Card
S-ACC-AKT x 2 infinias Credentials Key Fob
S-IMC-2 x 1 infinias Mobile Credential License 2 Pack
S-HAR-0069 x 1 Short Arm Security Hex Key
